

SRS: Otulia Luxury Asset Marketplace (Full-Scale)

1. Product Vision

- **Name:** Otulia
- **Core Goal:** A high-end marketplace for cars, real estate, and yachts.
- **Target Users:** Elite dealers (sellers) and high-net-worth individuals (buyers).
- **Key Value:** Credibility, restraint, and an "editorial luxury" feel.

2. Design Philosophy (The "Absolute Rules")

2.1 Visual Identity & Colors

- **Background:** #F8F8F8 (Off-White) only.
- **Primary Text:** #2C2C2C (Deep Charcoal).
- **Accent Color:** #B8860B (Subtle Gold) — used only for hierarchy, never decoration.
- **Dividers:** #D3D3D3 (Soft Grey).
- **Patterns:** Minimalist geometric textures (e.g., faint linen) allowed for depth.
- **Strictly Prohibited:** No gradients, no shadows, no neon, no illustrations.

2.2 Typography

- **Headings:** Serif font (e.g., Playfair Display) for an editorial look.
- **Body:** Sans-serif font (e.g., Montserrat) for clarity.
- **Constraint:** Max 2 font families total.
- **Spacing:** Large headings with relaxed, intentional whitespace.

2.3 Layout Rules

- **Priority:** Image-first always.
- **Feel:** Slow, confident scrolling; nothing should feel dense.
- **Rule of Thumb:** If a page feels "full," it is over-designed.

3. Functional Modules

3.1 Public Website (Buyer Facing)

- **Homepage:**
 - Full-width hero image/video.
 - Clear category entry: Cars, Real Estate, Yachts.
 - Curated "Featured Listings" section.
 - **Forbidden:** No popups, no banners, no forced login, no slogans.
- **Category Pages:**
 - 1–2 listings per row (Desktop).
 - Large cards (not grids).
 - Advanced filters: Price, Year, Location, Condition.
- **Asset Detail Page:**
 - **Above Fold:** Full-width gallery, Title, Price, Location.
 - **Below Fold:** Editorial description, Key Specs, Dealer Block.
 - **Dealer Block:** Name, Company, Location, Contact Details.
 - **Communication:** Inquiry form only (No live chat).
- **Buyer Accounts:**
 - Secure Login/Registration.
 - Saved Listings & Saved Searches.
 - Inquiry History tracking.

3.2 Dealer Dashboard (The "Luxury CMS")

- **Overview:**
 - Verification status.
 - Active/Pending listing counts.
 - Recent inquiry alerts.
 - **Forbidden:** No complex charts or messy graphs.
- **Inventory Management:**
 - Large thumbnails for every row.
 - Status labels: Live, Pending, Unpublished, Sold.
 - Actions: View, Edit, Unpublish, Delete.
- **Listing Flow (Step-Based):**

1. **Category:** Select asset type.
 2. **Details:** Enter specs and editorial copy.
 3. **Media:** Drag-and-drop high-res images/video (Reordering required).
 4. **Review:** Final preview before publishing.
- **Dealer Profile:**
 - Public-facing brand page.
 - Editable: Bio, Logo, Location, Contact Info.

3.3 Admin Module (Internal)

- **Dealer Management:** Approve/Reject new dealers, Suspend accounts.
- **Content Moderation:** Review and remove listings.
- **System Config:** Manage categories and global site settings.
- **Audit Logs:** Track all administrative actions.

4. Non-Functional Requirements

4.1 Performance & Technical

- **Load Time:** < 2 seconds for all pages.
- **SEO:** Clean, semantic markup; SEO-friendly URLs.
- **Auth:** Secure RBAC (Role-Based Access Control).
- **Scalability:** Microservices-ready architecture.
- **Mobile:** 100% responsive (Luxury feel must persist on mobile).

4.2 Security & Compliance

- **Encryption:** SSL/TLS for all data in transit; encrypted at rest.
- **Privacy:** GDPR/CCPA compliant data handling.
- **Backups:** Automated daily backups.

5. Out of Scope

- In-app payments/transactions.
- Live chat systems.
- AI-generated descriptions.

- Native Mobile Apps (iOS/Android).

6. Acceptance Criteria

- **The 3-Second Rule:** A stranger must trust the site within 3 seconds.
- **Dealer Pride:** Dealers must feel the UI is superior to competitors (e.g., JamesEdition).
- **Zero Experimentation:** No "beta" or "startup-style" UI elements.
- **Restraint:** If a feature isn't listed, it shouldn't be built.

Note to Developers: Restraint is the product. If it feels unnecessary, remove it.
